

**Royvon Dog Training Schools  
Residential Dog Training Services**

***The Complete Training Package  
The Complete Training Package (Intensive)  
Puppy Modular Courses  
Targeted Training  
Advanced Training  
Finishing School***

Royvon is the first and leading specialists for residential dog training. The features of the service include having the trainee dog live at the school for the duration of the training, with the owner learning the skills via provided training notes and a hands-on tuition at the end of the course. The benefits of the service include:

- Having one's dogs trained while on holiday
- Concentrating the training efforts in a controlled environment where appropriate distractions can be integrated into the session for realistic handling
- Allowing the owner to focus on learning the skills, instead of learning and teaching at the same time
- Specialised facilities for training, regardless of the weather
- Professional and experienced carers, trainers & behaviourists on-site 24 hours a day, 7 days a week

***Complete Training Package***

The Complete Training Package 3 week and intensive 10-day residential courses are designed to teach dogs and their owners basic obedience and behaviour management for family-friendly living. The purpose of the programme is to ensure general control regardless of the distraction, first by training the dog, then teaching the necessary reinforcement skills to the owner. There are a series of set standard exercises that are taught, in addition to putting focus on specific areas of concentration as outlined on a comprehensive dog profile questionnaire by the owner prior to the course.

The course includes dog accommodation, dog training, assessment, regular training updates, demonstration, tuition, follow-up session and aftercare services.

The 3 week course is offered to all dogs over the age of 6 months, and the 10-day, intensive course is only offered to pre-qualified dogs under 2 years of age.

***Advanced Training***

The Royvon Advanced Residential Training Package is the next level up from the Complete Training Package. The purpose of the programme is to perfect basic obedience exercises and practise more advanced training and training situations. Owners are also encouraged to share with the Trainer the desired lifestyle with their dog for a more customised approach to the programme.

The Advanced course is offered to graduates of the Complete Training Package, or other well trained dogs able to pass the pre-requisite assessment.

### ***Puppy Modular Courses***

The Royvon Modular Puppy Courses are designed to take puppy and owner through an intensive, training regime over a strategically calculated period of time. While the dog trains at the school residentially for short spans of time, the owner is taught the skills at the end of each module, followed by a specifically outlined programme to follow at home in preparation for the next level of training.

The Modular courses are similar to the Royvon Complete Training Package, yet target younger dogs/puppies. It also includes owners who want to be more involved in their dog's training while behaviour is gradually shaped & instilled over a longer period of time

The modules are designed for dogs between the ages of 4 - 12 months and include 5-day residential training per module with one month owner training breaks between each Module. There are 3 modules in total.

### ***Targeted Training***

Royvon Targeted Training are residential training programmes that focus on specific problematic obedience or behaviour. Below is a list of the most commonly requested targeting training, however, may be customised to suit the individual dog owner's needs.

These Courses are a minimum of one week, with specific requirements and assessment prerequisites for each area of concentration. All courses include a demonstration and hands-on tuition.

- Dog-Dog Aggression
- Recall
- Walk to Heel
- Poor Manners
- Chasing (On-lead)
- Safe Handling
- Safe Travel

### ***Finishing School***

The Royvon residential Finishing School is designed for dogs that have had some formal training, with its purpose being to provide the finishing touches of high standard obedience training. The course is ideal for those dogs that have already attended another Royvon, or otherwise, training course with successful results.

Offered to all dogs able to pass the pre-requisite assessment.

Royvon also offers specialty boarding, pampering and grooming services.

Please contact a member of the Royvon Team for more information or to book your residential course
